Psychedelic Mind Candy For The Brain

ISBN: 1-930967-00-4

A true arcade masterpiece is back! Way back in 1981, the original Tempest was introduced and immediately became a classic. Now, almost twenty years later, Tempest is back and looking better than ever! Tempest 3000 is best described as a fusion of modern music and psychedelic visuals with a generous dollop of old school, thumb-blistering, button smashing gameplay.

Tempest 3000 is from the world-renowned digital artist Jeff Minter and features:

- **Hundreds of unique and challenging levels**
- **Dynamic procedural textures for a cool psychedelic look**
- **New and improved weapons**
- **All of the original Tempest enemies, plus many new ones**
- **Cool Techno soundtrack**
